Moreover, on the surface, these tales are sufficiently true to life as it is lived in the milieu of their hero and heroine—a well-to-do suburban com-

more than a tribute to Manila; it is a tribute to a new idea in Oriental civilization. Manila has taught not only the Philippines, but China, India and the entire East, a truth which they had never suspected—that is, that filth and disease are not necessarily a part of existence. For ages smallpox, cholera, plague, beriberi, leprosy and other diseases had seemed to be part of nature's regular order in the Philippines. In the last ten years these scourges have disappeared or been controlled. Manila is not only the cleanest and most beautiful city in the Orient.

Sixty hungry students literally forced their way into the embassy, devoured the appetizing meal which had already been served in expectation of his excellency, and ended by raiding the pantry. While they were thus occupied the ambessador returned, but being told by the concierge what was happening inside he decided that prudence was the better part of valor. Accordingly he retired to a nearby restaurant and telephoned to the police. There is nothing a Pgrissian enjoys better, even a Parisian gendarme, says Mr. Gibbons, than a good joke.
